

## Recruitment Information for a Faculty Member

**Project Specific Associate/ Senior Assistant / Assistant Professor at the Office for International and Social Cooperation, Center for Marine Environmental Studies (CMES), Ehime University, Japan (non – tenured)**

### [Content of job information]

#### <Overview>

Ehime University, through the Office for international and Social Cooperation, Center for Marine Environmental Studies (CMES), with support from the Ministry of Education, Culture, Sports, Science and Technology (MEXT), is recruiting one faculty member (non – tenured) for the education and research organizational reform project "Promotion of Asian Center of Excellence through Reform of CMES" from AY2022 to AY2026. Please see the detailed job description below.

#### <Job description>

(1) Promote international joint research with Asian countries by proposing interdisciplinary research projects that cross-link the three research divisions of CMES. CMES research divisions are: Division of Environmental Dynamics, Division of Environmental Chemistry and Ecotoxicology, and Division of Ecosystem Health Sciences, as well as the Office for International and Social Cooperation and Environmental Specimen Bank for Global Monitoring (es-BANK). Please see <http://www.cmes.ehime-u.ac.jp/en/organization/> for more details.

(2) Manage and develop overseas research bases of CMES in cooperation with CMES faculty members. CMES has established the Ehime University-De La Salle University International Collaborative Research Laboratory (Philippine base; website <https://eudlsu-icrl.weebly.com/>) in AY2021, and plans to add another overseas bases in Asia in and after AY2022.

(3) Work closely with doctoral students from Asian countries to promote international collaborative researches with their home countries or countries where CMES overseas bases have been established etc.

(4) The successful applicant will not handle regular classroom classes, but will help plan and organize international symposiums and seminars for the benefit of the program.

#### <Place of work>

Johoku Campus, Ehime University

#### <Starting date>

August 1st, 2022, or as soon thereafter as possible

### [Employment status]

Full-time, non – tenured.

The contract will end at the end of AY2026 (March 2027). In the event that the post is converted to a core cost position based on the evaluation by MEXT and tenure eligibility screening by Ehime University after the contract ends in AY2026, a new contract may be offered or reappointment is possible.

### [Qualifications]

(1) Obtained a PhD degree before the contact begins.

(2) Research achievements related to CMES's research on marine environments and ecosystems, chemical pollution in the open ocean and on land, or one health research that comprehensively protects human, animal, and environmental health.

(3) International and collaborative skills to promote international collaborative research with researchers and international students (doctoral students) from Asian countries. English fluency required.

#### [Compensation]

(1) Salary will be in accordance with the Employment Regulations for Employees of Ehime University, the Salary Regulations for Employees of Ehime University, and other regulations of the University.

(2) The salary will be based on an annual salary system.
